Subject: The story of Madappas' 2nd modular kitchen project by Gran Kitchens

To: gran kitchens <grankitchens@gmail.com>

TO WHOMSOEVER IT MAY CONCERN

Mohan had improvised on our old kitchen at our residence at Benson Town, some years ago. We planned and fitted in a modular kitchen without disturbing the existing structure, without causing too much nuisance to neighbors in our building! This kitchen came out v well, and even after so many years, we did not have to call Mohan once, to repair any hinges, laminate or woodwork.

Therefore, when we decided to re-model our 2nd flat's kitchen in Fraser Town, we did not bother to search elsewhere, simply called **Gran Kitchens!**

The kitchen was spoilt terribly by the tenants and looked v depressing. We wanted a larger, brighter, more cheerful space, well-ventilated, colours that have clean and smart atmosphere. This time, we broke down some structures and re-did the plumbing, to get a nice long rectangular space.

- Instead of the black kitchen counter which was there, we chose a Burgundy red granite counter (photo no.182). The wall tiles were a cute Red-Chilies-& Cherry Tomatoes print and ivory plain tiles (photo no 184). For the shelves, we chose a lovely Burgundy red and white. The floor was to be a brown design, that looked like parquet, but were ceramic tiles (photo no188). So we had this Red/Maroon, White and Brown theme, which augured well with the cheerfulness we tried to achieve.

Mohan proceeded and designed the kitchen and layout and with our approval, implemented it.

What emerged was a truly dream kitchen, anyone, would love to spend time cooking or eating there!!

- The ceiling had this beam across, near the chimney, which was concealed by Mohan using a laminate and 2 small concealed lights fixed (photo no190). This gave the area a v intimate look, and a couple may like to sit and enjoy a meal together, right under that, in the kitchen itself, with an open window allowing breeze to flow in.
- The space for the Microwave oven is elevated, so that the Mixie-Grinder, Toaster, Baking oven, etc... can be placed near the switches on the kitchen counter, in a corner (photo 185).
- The washbasin has a drain board above and a dustbin rack below (photo 187).
- The respective drawers and racks below the kitchen counter, provided for crockery, cutlery, jars, bottles, cooking utensils, linen, etc.... (photo 188)
- The final view in Photo no 189, gives an overall pic, but does not capture the depth and true colours due to lack of professional photography!!

The bottom-line is that the 2nd project by Gran Kitchens for us turned out brilliant and we are extremely happy with it. Mohan's work is good, his schedule is maintained, his charges are affordable, and what's more, he works alongside with the client, to suit our taste and requirements (does not force his design on us).

We have booked our 3rd apartment which is very high end and in Karle Town Centre, Nagwara, next to the lake and Manyata. We have booked Gran Kitchens to design and implement our kitchen there.

NOW THAT WILL MAKE A HAT-TRICK OF MODULAR KITCHENS CREATED FOR US BY GRAN AND MOHAN!!

We take this opportunity to wish Mohan and Gran Kitchens the very best in their work always,

Mrs Aslesha Madappa

Dear Mr Mohan,

Here are some photos of our kitchen which we re-modeled recently through you and your team of carpenters. Mr Madappa & I wish to place on record our deep satisfaction and appreciation regarding the work done.

Since the Apartment is old & we did not want to inconvenience our neighbors with noise, we had requested you to design the carpentry in such a way that we do not break any existing structures like the granite platform, the wash basin, concrete shelves, chimney,etc... We are happy with the outcome of your efforts of working round these challenges. The accessories we chose seem to fit in perfectly and the overall storage space now available makes the project worth it.

We like the corner shelves & the little niche near the switches. The plates rack with a drip tray is very useful as is the board with hangers for our ladles. All of these were possible because of the following:

- a.. Your customer-friendly approach which enabled us to choose from the suggestions made by you. The CAD designing helped us visualize easily and proceed further with our decisions.
- b.. The reasonable cost at which you estimated the project so that we could decide & implement it quickly.
- c.. Your completing the task as per assured time schedule.
- d.. The quality of workers , their efficiency, right attitude and not inconveniencing the customer in any way.

We take this opportunity to wish you all the best in your future ventures.

My sincere apologies for delayed mail

Hello All,

We have given full responsibility to design our **kitchen and wardrobes to Mohan T.V and he is done excellent work & is appreciated by my relatives and friends who visited my house. He is reasonable and designed it in accordance with my budget.** As I was busy with my office schedules, we have given the keys to Mohan and he handled the job with priority and also helped me in the other interior stuff.

He has done a good job and is reliable. I would certainly signup for him for my future plan and recommend friends and colleagues for interior works.

Hi Mohan

I thought I should take this time out to send my appreciation and gratitude for the work done by you and your team for my house at **Renuka Enclave, Koramangala.**

Its said that a house is built brick by brick but it's the finishing work that makes a house home. You and your team have made my house a home and I can only thank you for it.

I must also add that the work was value for money and the wardrobes and kitchen cabinets are not just aesthetic but also of high utility value.

I wish you all the luck with your assignments. I know that you are very strong at building relationships with your clients and that will take you a long way. I will be happy to refer and recommend you to my friends and colleagues for their interior work.

Mr Mohan,

This is to send you a note of appreciation to you and your professional team who created our very functional dream kitchen.

Mr Mohan very clearly understands his client's requirements and comes up with excellent designs and also offers very practical ideas based on his many number of years of experience. He truly respects and works in a very professional manner with his team.

His team is very dedicated and never was a situation where they would ask for anything while working on the project. Mr Mohan very clearly put together a schedule, cost and the dependencies upfront, and everything was done according to the plan. I would HIGHLY recommend GRAN DESIGNS to anyone who is looking to get a Modular Kitchen done (remodeling or doing it from scratch).

Thank you very very much for completing our project on Time and on Budget.

Hi Mohan,

Please find below my view on the work you had done for me.

Mohan has done a pretty good job and is in accordance to the specifications i have given. **He will give us space for our designs**, so you can go ahead and give him your thought as well. I had gone for an unconventional design and color (i worked out the plan and layout and color as well) for the kitchen - so it took some time for him to get ordered (around 15 days just to get the wood) while the whole set up of frame was complete well ahead of time. So all in all the work got completed in a months time. **Although i am not available in Bangalore, i had entrusted him the keys to the house and he did a very good job handling his priorities to helping me in the other interiuro stuff i had to do (light fittings and warddrobes - he took his time out of his work and stayed around when those work were getting done).**

he has done a pretty good job and is very reliable. **I would certainly sign up for him for my future plans or even give the thumps up for any one who would like to take his services.**

Appreciation Mail

I would like to express my appreciation to Mr Mohan for the excellent kitchen and woodwork he has created for me.

I recently took possession of my flat at Godrej Bangalore and met a few vendors who advertise woodwork for kitchen and bedrooms etc. However, despite meeting and discussing with them, I was not very convinced by their sales talk or ability to execute and deliver what they promised.

I was still searching and by chance, came across Mr Mohan on the internet. I called and spoke to him and within a day I got the feeling he is the right person for me. I immediately found the confidence to give him the contract and we started discussing and interacting further on email and phone.

I finally met him in Bangalore just before he started the work in my flat. I found him to be a simple, straight forward and honest person who believes in giving the best possible to his customer and for the right price. His dedication and knowledge, along with the desire to satisfy his customer impressed me.

Looking back, I am happy I met Mr Mohan. He has done a superb job for me in my flat at Bangalore. During the course of the work, we faced a lot of problems but he managed everything locally without the need for me to visit personally. I also requested him help to manage other items like – electrical fittings, some bathroom fittings etc and he has really helped me without grudge. So I did not visit Bangalore even once during this whole process and the work was completed perfectly as originally planned.

I am very happy with his commitment and passion to do a good job. I am sure he will do really well and get more & bigger orders.

I would like to unconditionally recommend him for future work. I am sure I will continue referring him to anyone I know in Bangalore for their requirements. I also have found a friend in him and know that this relationship will last.

I am Glen Dsouza from Muscat- Oman. I never met Mr. Mohan yet thru some faith in him I placed my order to build my kitchen in Bangalore - Yelanka , only thru seeing some of his kitchen jobs thru internet/ web site.

My kitchen work have been completed purely to my satisfaction even though I nor any of my family members were present during the executing of the work

I can tell you that he is a man of Principal, he is profession in his work and once he takes the orders he ensures to execute with the following issues

- 1) Send the drawings with design
- 2) Recommends his concept with color combination/ accessories
- 3) Rates are reasonable
- 4) Completes the work on time

I have also observed that he will keep you up dated with every day works / execution and development thru emails and with photographs/ video.

I don't think you can find such a wonderful person who is not only a professional in his work but a down to earth person- One can trust him.

May God Bless him and shower all the blessings to keep his business growing

Dear Mohan,

Hmmmm...Where do I begin...I guess somewhere in Jan 2012!! That's exactly when I heard about you via a Google search.

Since the time, I never thought that I would be looking for any other options than Gran Designs.

The fact that I gave you the order many months after the first site visit and you still took it without any grievances was a testimonial of your professionalism and your customer centricity. I wish more service organizations had the stuff that you are made up off!

The Kitchen work was completed exactly as per schedule . The finishing and final look of the kitchen is exquisite.

Your team lead by Freddie is awesome and extremely professional. We can trust them totally with the work and the house

I love the fact that you constantly challenge yourself as well and keep providing and taking suggestions to better what we already have.

Most importantly, your rates are always realistic and never over the top.

Therefore, I am happy to also place orders for my rest of the house in the coming months as discussed.

Dear Sir,

Thank you for completing my kitchen work well in advance and as per my requirement and budget. I really appreciate your dedication to work. You visited the site many times, though it is far away, sometimes even in the late evening. The modular kitchen has come out well and my family members are also appreciating the work.

Thank you very much.

Acc to a proverb, "nothing ventured, nothing gained". From a hobby, you dared to venture as an entrepreneur and you have "gained" from the journey.

It was possible mainly bec of family support, your creativity, professionalism, committed workers, client satisfaction & referrals and mainly God's blessings with opportunities.

Congratulations again and tks for sharing your Happy Moments thru pics.

Keep growing.....

Subject: Great work Mohan

Hello Mohan,

It is my pleasure to thank you and appreciate the wonderful work you have done and it was really tough initially for me to chose for an interior designer. Though I was browsing for many interior designers and contacting them but finally I felt may be Gran designs is the best one based on the response I got from you via phone as well as looking at the work done in other houses/flats.

Your workers are so dedicated, honest and I dint even had to follow up on anything as you were promptly updating the work progress.

There is no other word that I am able to think beyond wonderful, excellent, simply superb etc... to express my words.

I simply trusted gran designs and I could not believe my eyes when the work was completed...

Everyone in my apartment was praising the work done and even now they keep talking about my interiors :)

I am so glad and thankful to you...keep going and wish you all the very best for all your future endeavors.

Thanks,

Dear Mohan,

Thanks for completing the interiors. I am very happy with your work, that is the reason I gave you my second apartment for interiors and you have done your job well again. Keep up the good work. I will always refer you to my friends and family for any interiors work. Your customer focus is really good. You keep updating the progress with Photos and video which I liked. This attitude should never change. As long you keep this good nature your business will excel.

All the best.

If any of your customers need feed back about you please give them my email id.

Take care

Letter of Appreciation

Dear Mohan,

Finally the long due letter of appreciation that was promised to you :)

We had moved to house in May last year and had gone around a lot looking for interior options. Happened to see Mohan's advertisement for Gran Kitchens on google... Since we had looked into a lot of options and had been approached by many interior companies, the details were mind boggling and we are quite not sure as to what to do... which is when Mohan entered the fray. The very first thing we noticed about him was his dedication to his work. After finalizing the quotes and approving the designs also, we changed them quite a number of times...each time he took into consideration our choice and suggested what would suit and what wouldn't our requirements. In matters of design also he gave us a lot of choice and ample time to decide. At no point in time it felt as if he was rushing us coz we just another job to finish.

I also must make a special comment about his policy of customer satisfaction. After he had started putting together the kitchen, I made a request for a change and asked for additional cupboards. Mohan could have not accommodated our request citing time and extra effort it would take. But he made all the adjustments and finished the kitchen to our requirement.

We loved his attitude most of all. His customer relations and the way he would treat your work as the most important work for him. Also commendable is the pride that he takes in providing the best service possible. His charges are also reasonable and fit into our budget very well.

We always recommend him for house interior services and also would use his services again when we enter into phase two of our house interiors.

His preparation before the project starts, his work and dedication during the project and of course his guarantee of lifetime service all together make a great deal...

Thank you so much Mohan for everything....

Best regards

Susan

Hello Mohan,

I feel good to write few words on the kitchen work you did for our new house. Kitchen now has become the 'CENTER OF ATTRACTION' of our house. The following lines will be for those who read this mail apart from Mohan.

I accidentally got to know about GRAN KITCHENS when i was looking for modular kitchen makers in Bangalore on Google, he came for the site visit after the 1st call and shared his views about the structure of the kitchen. Then he gave us the design which was almost OK for us, we then made few changes to the design based on our requirements. He started the work and finished it in 3-4 weeks, as he has said. One best thing about Mohan is 'He is a real business man'. Have attached the photos of our kitchen, and the photos speak for itself. Once again Thanks to mohan for helping us get the kitchen done so well.

Thanks

Ganesh

Hi Mohan,

Like everyone, it all started with searching on the web for different vendors, visiting nearby shops and malls, and getting quotes from them including you.

The fact that you did a free site visit and looked into all the details, took inputs and sent me designs, made modifications after taking some more inputs clinched the deal in your favor. Extensive pre-work, eye for details and lifetime service is the icing on the cake. Very happy to have chosen to do business with you. Let me tell you that it is a start and hopefully there will be many more to come in future.

Thanks,

Dear Mohan,

Its long time. Hope you and your family are doing well.

Primarily this mail is to appreciate your work in my home-kitchen. Thanks for providing a good finishing. We feel more comfortable in using the cabinets/drawers, and lookwise also it is pleasant. There were many visitors of our house who have appreciated overall woodwork. I thought it is right to pass on the credits to you.

Thanks & all the best in your future works,
